\*BENEV Exosome products are post care "topical use" cosmetic solutions. They are not intended to prevent, treat or cure diseases or medical conditions. They are not intended to be injected or delivered intravenously.

<sup>1</sup> Skin complexion treatment targets the basement membrane and vessels to create a visibly more youthful, even toned and textured complexion.

<sup>2</sup> Skin revitalization treatment targets dermal layers of the skin to increase collagen and elastin fiber through hemostasis and electrocoagulation.

## SYLFIRM X TREATMENT

The world's first and only treatment of its kind featuring both scientifically advanced Sylfirm X dual wave radio frequency microneedling device and exosome technology, to supercharge and X-Cellerate treatment results.

### HOW DOES IT FEEL?

The feeling is described by most patients as comfortable with no pain, only a slight tingling sensation with light pressure. Based on the depth and area treated this feeling can vary.

### HOW MANY TREATMENTS DO I NEED?

Most physicians find that 3 to 6 treatments, spaced 4-6 weeks apart provide the optimal experience and outcome for patients.

### HOW LONG DOES THE TREATMENT TAKE?

The actual treatment takes about 20-45 mins depending on the area to be treated.

### HOW LONG DOES THE RESULT LAST?

Everyone is different, but your own body collagen production can continue to accelerate over three months.

## WHAT IS SYLFIRM X

### DUAL WAVE RADIO FREQUENCY MICRONEEDLING SYSTEM

The world's first & only FDA cleared pulsed wave & continuous wave radio frequency microneedling device for ultimate skin complexion<sup>1</sup> and skin revitalization<sup>2</sup>. Sylfirm X has proven its effectiveness and safety through 25+ clinical studies and experiments.

### WHAT IS RADIO FREQUENCY?

Radio frequency provides heat that stimulates collagen production which has been found to lead to tighter, younger looking skin. Combined with state-of-the-art microneedling patients experience optimal results.

## ADVANCED EXOSOME TECHNOLOGY

Sylfirm X treatment features Exosome Regenerative Complex & Exosome Regenerative Complex +\* which are based on the most cutting edge scientific biotech breakthrough and clinically proven to rejuvenate and regenerate skin and scalp.
